PROFESSIONAL SUMMARY

Frontend Engineer with 3+ years of experience building scalable, responsive web applications using React.js, TypeScript, JavaScript (ES6+), Next.js, and modern frontend technologies. Experienced in reusable component architecture,REST/GraphQL API integration, Redux Toolkit and React Query, responsive UI, and frontend performance optimization. Familiar with FastAPI, Node.js, Express.js and MongoDB. Strong experience collaborating with backend, QA, design and product teams in Agile/Scrum environments.

PROFESSIONAL EXPERIENCE

Front-End Developer — 2025 – Present

eOxegen – Track Four Infotec (I) Private Limited | *Kolkata, West Bengal*

- Developed scalable frontend modules including Claims Processing, Provider Management, MDM, and User Management using React.js and reusable component architecture. Built reusable UI components using React.js, JSX, HTML5, CSS3 and Tailwind CSS, reducing code duplication across modules.
- Implemented React Query for server-state management, API fetching, caching and asynchronous operations; used Redux for centralized client-side state.
- Integrated RESTful APIs and collaborated with backend teams for reliable data flow, API integration and error handling.
- Worked with Node js , FastAPI and MongoDB to develop backend APIs, handle database operations, and support frontend-backend integration.
- Improved performance through lazy loading, code splitting, memoization and unnecessary re-render reduction; collaborated with QA/product teams in Agile/Scrum.

Front-End Web Developer — 2023 – 2025

Webskitters Technology Solutions Pvt. Ltd | *Kolkata, West Bengal*

- Developed multi-location web platforms using Astro.js, React.js and TypeScript with reusable, type-safe components.
- Integrated React Query and GraphQL APIs for efficient data fetching, caching and dynamic service/location data.
- Implemented React-Leaflet and Google Maps API for interactive location tracking and visualization, plus booking/scheduling interfaces.
- Achieved GTMetrix scores above 90% through asset optimization, lazy loading and rendering improvements; worked with Git-based CI/CD workflows.

TECHNICAL EXPERTISE

Languages: HTML5, CSS3, JavaScript, Python

Frameworks / Libraries: React.js, Next.js, TypeScript

Backend Technologies: FastAPI, Node.js, Express.js, MongoDB

Design Tools: Figma

State Management & UI Libraries: React Query, Redux Toolkit, React Hooks, TanStack Query, Tailwind CSS, Material UI

Version Control & Deployment: Git, GitHub, GitLab, Vite, Docker, CI/CD Workflows, Vercel

Responsive Design: Bootstrap, CSS, SCSS, Styled Components

EDUCATION

Bachelor of Technology in Electronics & Communication — **2023**

Dr. Sudhir Chandra Sur Institute of Technology — Dumdum, West Bengal

Grade: 8.82 CGPA
